OUR PROMISE

Most Stringent Quality Control

Confidently Fast & Safe Shipping

Premium Customer Service

10+ YEARS EXPERIENCE

Shaoxing CosPack was founded in Shaoxing, China, by manufacturing and selling empty glass bottles, plastic bottles, and packaging boxes to the industries of Essential Oils, Pharmaceuticals, Skin Care, Bath & Body Care, Beauty Cosmetics, Hair Care, Cleaning and Hand Sanitizer, Candles, Fragrance, nutraceuticals, and Food Packaging. From the outset, we have been researching the use of new, sustainable materials and eliminating harmful materials and processing technologies that could harm our environment. Offering more eco-friendly products for a healthier life and a greener earth powers everything we do.

2015 is the reborn year of SHAOXING COSPACK! Not chasing the hot-selling products on the market, but driving innovation and unique packaging. We have strived continuously to achieve the goals of all customers since 2015. Not only address those who deal in small personalized businesses, but also those who are sourcing in high-volume businesses in the field of personal care, cosmetics, pharmaceutical, and household chemical products.

Our R&D team has accumulated extensive experience working with 3D modeling technology, which makes your creativity easier to turn into reality. Even if you select our existing bottles and packaging, we can process excellent, unique products for different clients. The sales team offers personalized one-on-one service, ensuring your project progresses smoothly and efficiently. Our unwavering commitment and focus aim to help our customers maintain the brand's goal for the ongoing and future.

Shaoxing CosPack maintains a focus on new sustainable materials and introduces more eco-friendly products to promote a healthier life and a greener tomorrow. We manufacture replaceable and refillable bottles using eco-friendly bio-materials, including bamboo, paperboard, and wheat straw, among others, for packaging. This type of sustainable packaging would have positive benefits for humanity.
